

# Cryopreservation and Storage

## Containers for cryo-preservation

We offer the full range of CHART/MVE cryogenic containers for storage or transport of biological samples in LN<sub>2</sub>. You will find the specifications for LAB, SC and XC series as well as Dry Shippers on our homepage [www.mtg-de.com](http://www.mtg-de.com). Please click on products – cryopreservation – LN<sub>2</sub> tanks. Moreover our delivery program includes electronic control systems for temperature and liquid level control (please see page 14).
